| PORTFOLIO |

‘Color is a power
which directly
influences
the soul.’

Wassily Kandinsky

The Collection.

Created during the first wave of COVID-19, Antwerp, Belgium.

1 big artwork, consisting of 13 different original Kenisman artworks, was made for the Hospital Network of Antwerp, Belgium (ZNA). Each hospital received their own unique artwork, along with a number of selected acrylic markers, to color it. The artwork not only connected all the workers within each hospital, but at the same time also connected all 13 hospital sites with each other through their mutual act of coloring.
